Add Remove View

The Notice section of this Form 19b-4 must comply with the guidelines for publication in the Federal Register as well as any requirements for electronic filing as published by the Commission (if applicable). The Office of the Federal Register (OFR) offers guidance on Federal Register publication requirements in the Federal Register Document Drafting Handbook, October 1998 Revision. For example, all references to the federal securities laws must include the corresponding cite to the United States Code in a footnote. All references to SEC rules must include the corresponding cite to the Code of Federal Regulations in a footnote. All references to Securities Exchange Act Releases must include the release number, release date, Federal Register cite, Federal Register date, and corresponding file number (e.g., SR-[SRO]-xx-xx). A material failure to comply with these guidelines will result in the proposed rule change being deemed not properly filed. See also Rule 0-3 under the Act (17 CFR 240.0-3)

Add Remove View

The self-regulatory organization may choose to attach as Exhibit 5 proposed changes to rule text in place of providing it in Item I and which may otherwise be more easily readable if provided separately from Form 19b-4. Exhibit 5 shall be considered part of the proposed rule change.

Partial Amendment

Add Remove View

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

NYSE MKT, LLC (the “Exchange”) hereby submits this partial amendment to SR-NYSEAmex-2012-23 (the “Filing”). The Exchange seeks to make the following changes to the text in the Filing and the Notice of Proposed Rule Change (Exhibit 1) thereto:

Insert the following paragraphs after the first paragraph under “Purpose” on page 5 of the 19b-4 of the proposed rule and after the first paragraph on page 12 of the Exhibit 1:

When announcing changes to the Mechanism via Regulatory Bulletin the Exchange will issue such bulletin to all Market Makers at least one trading day in advance of the effective date of the change. All such Regulatory Bulletins will contain information regarding changes to the risk settings in the Mechanism, the effective date of such changes and contact information of Exchange staff who can provide additional information. The Exchange distributes Regulatory Bulletins simultaneously to all Market Makers via e-mail and in addition Regulatory Bulletins are posted to the Exchange’s website.

Upon receiving notification of a change to the minimum/maximum settings in the Mechanism by the Exchange, Market Makers will be able to make adjustments they deem necessary to their own risk settings within the Mechanism using the same electronic interface that they use to send quotes to the Exchange. In addition, Market Makers may elect to adjust risk settings in their own proprietary systems in reaction to any changes initiated by the Exchange. For example, if the Exchange was to raise the minimum number of executions per second in the Mechanism to a level greater than a given Market Maker was using at the time, the Market Maker would take that new setting into consideration and could make appropriate changes to their own risk settings within the Mechanism, and if warranted, could make additional adjustments to their own proprietary quoting systems to achieve risk parameters consistent with their individual business model. When adjusting risk parameters in the Mechanism and/or a proprietary system, in reaction to a change in the minimum/maximum settings by Exchange, Market Makers are able to utilize functionality that is both readily available and user controlled.

Accordingly, the Exchange believes that providing Market Makers with at least one day’s advance notice prior to making adjustments to the Mechanism will afford Market Makers sufficient time to review their risk settings and make operational or and/or technological changes, to either the user controlled risk settings in the Mechanism or to their own proprietary systems, necessary to accommodate any such adjustments made to the Mechanism by the Exchange.
