1. Text of the Proposed Rule Change

- (a) NYSE MKT LLC. (“NYSE Amex Options” or “Exchange”) proposes to amend Commentary .10 to Exchange Rule 903 to allow the NYSE Amex Options to open Short Term Option Series (“Weeklies”) that are opened by other securities exchanges in option classes selected by other exchanges under their respective short term option rules. The text of the proposed rule change is attached as Exhibit 5. A copy of this filing is available on the Exchange’s Web site at www.nyse.com, at the Exchange’s principal office and at the Commission’s Public Reference Room.
- (b) The Exchange does not believe that the proposed rule change will have any direct effect, or any significant indirect effect, on any other Exchange rule in effect at the time of this filing.
- (c) Not applicable.

2. Procedures of the Self-Regulatory Organization

Senior management has approved the proposed rule change pursuant to authority delegated to it by the Board of the Exchange. No further action is required under the Exchange’s governing documents. Therefore, the Exchange’s internal procedures with respect to the proposed rule change are complete.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

The purpose of this proposed rule change is to amend Commentary .10 to Exchange Rule 903 to allow the Exchange to open Short Term Option Series (“Weeklies”) that are opened by other securities exchanges in option classes selected by other exchanges under their respective short term option rules.¹

¹ On July 12, 2005, the Commission approved the Weeklies Program on a pilot basis. See Securities Exchange Act Release No. 52014 (July 12, 2005), 70 FR 41244 (July 18, 2005) (Amex-2005-035). The Weeklies Program was made permanent on June 23, 2010. See Securities Exchange Act Release No.62370 (June 23, 2010), 75 FR 37870 (June 30, 2010) (SR-NYSEAmex-2010-62).

Currently, the Exchange may select up to 5 currently listed option classes on which Weeklies options may be opened in the Weeklies Program and the Exchange may also match any option classes that are selected by other securities exchanges that employ a similar program under their respective rules. For each option class eligible for participation in the Weeklies Program, the Exchange may open up to 30 Short Term Option Series for each expiration date in that class.

This proposal seeks to allow the Exchange to open Weeklies option series that are opened by other securities exchanges in option classes selected by other exchanges under their respective short term option rules. This change is being proposed notwithstanding the current cap of 30 series per class under the Weeklies Program. This is a competitive filing and is based on existing rules of The NASDAQ Stock Market LLC for the NASDAQ Options Market (“NOM”) and NASDAQ OMX PHLX, Inc. (“PHLX”) and Chicago Board Options Exchange, Incorporated (“CBOE”).²

NYSE Amex Options is competitively disadvantaged since it operates a substantially similar Weeklies Program as NOM, PHLX and CBOE but is limited to listing a maximum of 30 series per options class that participates in its Weeklies Program (whereas PHLX, NOM and CBOE are not similarly restricted).

The Exchange is not proposing any changes to the Weeklies Program other than the ability to open Weeklies option series that are opened by other securities exchanges in option classes selected by other exchanges under their respective short term option rules.

The Exchange notes that the Weeklies Program has been well-received by market participants, in particular by retail investors. The Exchange believes that the current proposed revision to the Weeklies Program will permit the Exchange to meet increased customer demand and provide market participants with the ability to hedge in a greater number of option classes and series.

With regard to the impact of this proposal on system capacity, the Exchange has analyzed its capacity and represents that it and the Options Price Reporting Authority (“OPRA”) have the necessary systems capacity to handle the potential additional traffic associated with trading of an expanded number of series for the classes that participate in the Weeklies Program.

The proposed increase to the number of series per classes eligible to participate in the Weeklies Program is required for competitive purposes as well as to ensure consistency and uniformity among the competing options exchanges that have adopted similar Weeklies Programs.

² See Securities Exchange Act Release Nos. 65775 (November 17, 2011), 76 FR 72473 (November 23, 2011) (SR-NASDAQ-2011-138) ; 65776 (November 17, 2011), 76 FR 72482 (November 23, 2011) (SR-PHLX-2011-131); and 66563 (March 9, 2012), 77 FR 15426 (March 15, 2012).

(b) Statutory Basis

The proposed rule change is consistent with Section 6(b) of the Securities Exchange Act of 1934 (the “Act”),³ in general, and furthers the objectives of Section 6(b)(5),⁴ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market system. The Exchange believes that expanding the Weeklies Program will result in a continuing benefit to investors by giving them more flexibility to closely tailor their investment decisions and hedging decisions in a greater number of securities. The Exchange also believes that expanding the Weeklies Program will provide the investing public and other market participants with additional opportunities to hedge their investment thus allowing these investors to better manage their risk exposure. While the expansion of the Weeklies Program will generate additional quote traffic, the Exchange does not believe that this increased traffic will become unmanageable since the proposal remains limited to a fixed number of classes.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. In this regard and as indicated above, the Exchange notes that the rule change is being proposed as a competitive response to existing NOM, PHLX and CBOE rules. NYSE Amex Options believes this proposed rule change is necessary to permit fair competition among the options exchanges with respect to their short term options programs.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The Exchange believes that the proposal qualifies for immediate effectiveness upon filing as a “non-controversial” rule change in accordance with Section

³ 15 U.S.C. 78f(b).

⁴ 15 U.S.C. 78f(b)(5).

19(b)(3)(A) of the Act⁵ and Rule 19b-4(f)(6) thereunder.⁶

The Exchange asserts that the proposed rule change (i) will not significantly affect the protection of investors or the public interest, (ii) will not impose any significant burden on competition, and (iii) by its terms, will not become operative for 30 days after the date of this filing, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest. The proposed rule change is substantially similar in all material respects to existing NOM, PHLX and CBOE rules which permit each exchange to open Weeklies option series that are opened by other securities exchanges in option classes selected by other exchanges under their respective short term option rules. In addition, the Exchange provided the Commission with written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing, or such short time as the Commission may designate.

The Exchange respectfully requests that the Commission waive the 30-day delayed operative date so that the proposed rule change may become effective and operative upon filing with the Commission pursuant to Section 19(b)(3)(A) of the Act⁷ and Rule 19b-4(f)(6)⁸ thereunder. Waiver of the operative delay is consistent with the protection of investors and the public interest in that doing so will encourage fair competition among the exchanges, by allowing the NYSE Amex Options to compete effectively by expanding its Weeklies Program to the current parameters of NOM, PHLX and CBOE's Weeklies Programs.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission

As discussed above, this proposed rule change is based on proposed rule changes of NOM, PHLX and CBOE.

Self-Regulatory Organizations; NYSE MKT LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Amending Commentary .10 to Exchange Rule 903 Allowing the NYSE Amex Options to Open Short Term Option Series That Are Opened by Other Securities Exchanges in Option Classes Selected by Other Exchanges Under Their Respective Short Term Option Rules

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the “Act”)² and Rule 19b-4 thereunder,³ notice is hereby given that on June 12, 2012, NYSE MKT LLC (the “Exchange” or “NYSE MKT”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to amend Commentary .10 to Exchange Rule 903 to allow the Exchange to open Short Term Option Series (“Weeklies”) that are opened by other securities exchanges in option classes selected by other exchanges under their respective short term option rules.⁴

Currently, the Exchange may select up to 5 currently listed option classes on which Weeklies options may be opened in the Weeklies Program and the Exchange may also match any option classes that are selected by other securities exchanges that employ a similar program under their respective rules. For each option class eligible for participation in the Weeklies Program, the Exchange may open up to 30 Short Term Option Series for each expiration date in that class.

⁴ On July 12, 2005, the Commission approved the Weeklies Program on a pilot basis. *See* Securities Exchange Act Release No. 52014 (July 12, 2005), 70 FR 41244 (July 18, 2005) (Amex-2005-035). The Weeklies Program was made permanent on June 23, 2010. *See* Securities Exchange Act Release No.62370 (June 23, 2010), 75 FR 37870 (June 30, 2010) (SR-NYSEAmex-2010-62).

This proposal seeks to allow the Exchange to open Weeklies option series that are opened by other securities exchanges in option classes selected by other exchanges under their respective short term option rules. This change is being proposed notwithstanding the current cap of 30 series per class under the Weeklies Program. This is a competitive filing and is based on existing rules of The NASDAQ Stock Market LLC for the NASDAQ Options Market (“NOM”) and NASDAQ OMX PHLX, Inc. (“PHLX”) and Chicago Board Options Exchange, Incorporated (“CBOE”).⁵

NYSE Amex Options is competitively disadvantaged since it operates a substantially similar Weeklies Program as NOM, PHLX and CBOE but is limited to listing a maximum of 30 series per options class that participates in its Weeklies Program (whereas PHLX, NOM and CBOE are not similarly restricted).

The Exchange is not proposing any changes to the Weeklies Program other than the ability to open Weeklies option series that are opened by other securities exchanges in option classes selected by other exchanges under their respective short term option rules.

The Exchange notes that the Weeklies Program has been well-received by market participants, in particular by retail investors. The Exchange believes that the current proposed revision to the Weeklies Program will permit the Exchange to meet increased customer demand and provide market participants with the ability to hedge in a greater number of option classes and series.

With regard to the impact of this proposal on system capacity, the Exchange has analyzed its capacity and represents that it and the Options Price Reporting Authority

⁵ See Securities Exchange Act Release Nos. 65775 (November 17, 2011), 76 FR 72473 (November 23, 2011) (SR-NASDAQ-2011-138) ; 65776 (November 17, 2011), 76 FR 72482 (November 23, 2011) (SR-PHLX-2011-131); and 66563 (March 9, 2012), 77 FR 15426 (March 15, 2012).

(“OPRA”) have the necessary systems capacity to handle the potential additional traffic associated with trading of an expanded number of series for the classes that participate in the Weeklies Program.

The proposed increase to the number of series per classes eligible to participate in the Weeklies Program is required for competitive purposes as well as to ensure consistency and uniformity among the competing options exchanges that have adopted similar Weeklies Programs.

2. Statutory Basis

The proposed rule change is consistent with Section 6(b) of the Securities Exchange Act of 1934 (the “Act”),⁶ in general, and furthers the objectives of Section 6(b)(5),⁷ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market system. The Exchange believes that expanding the Weeklies Program will result in a continuing benefit to investors by giving them more flexibility to closely tailor their investment decisions and hedging decisions in a greater number of securities. The Exchange also believes that expanding the Weeklies Program will provide the investing public and other market participants with additional opportunities to hedge their investment thus allowing these investors to better manage their risk exposure. While the expansion of the Weeklies Program will generate additional quote traffic, the Exchange does not believe that this increased traffic will become unmanageable since the proposal

⁶ 15 U.S.C. 78f(b).

⁷ 15 U.S.C. 78f(b)(5).

remains limited to a fixed number of classes.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act⁸ and Rule 19b-4(f)(6) thereunder.⁹ Because the proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6)(iii) thereunder.

A proposed rule change filed under Rule 19b-4(f)(6)¹⁰ normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule

⁸ 15 U.S.C. 78s(b)(3)(A)(iii).

⁹ 17 CFR 240.19b-4(f)(6).

¹⁰ 17 CFR 240.19b-4(f)(6).

19b4(f)(6)(iii),¹¹ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or

process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet website (<http://www.sec.gov/rules/sro.shtml>). Trading of Option Contracts

Section 1. General Rules Relating to Options

Rule 903. Series of Options Open for Trading

(a) – (h) No change.

. . . *Commentary* -----

.01 – .09 No Change.

.10 Short Term Option Series.

(a) the Exchange may select up to five currently listed option classes on which Short Term Option Series may be opened on any Short Term Option Opening Date. In addition to the five-option class restriction, the Exchange also may list Short Term Option Series on any option classes that are selected by other securities exchanges that employ a similar Program under their respective rules. For each option class eligible for participation in the Short Term Option Series Program, the Exchange may open up to 30 Short Term Option Series for each expiration date in that class. The Exchange may also open Short Term Option Series that are opened by other securities exchanges in option classes selected by such exchanges under their respective short term option rules.

(b) Initial Series. The Exchange may open up to 20 initial series for each option class that participates in the Short Term Option Series Program. The strike price of each Short Term Option Series will be fixed at a price per share, with approximately the same number of strike prices being opened above and below the value of the underlying security (or, in the case of index options, the calculated value of the index) at about the time that the Short Term Option Series are initially opened for trading on the Exchange (e.g., if seven series are initially opened, there will be at least three strike prices above and three strike prices below the value of the underlying security). Any strike prices listed by the Exchange shall be within thirty percent (30%) above or below the closing price of the underlying security from the preceding day.

(c) Additional Series. The Exchange may open up to 10 additional series for each option class that participates in the Short Term Option Series Program when the Exchange deems it necessary to maintain an orderly market, to meet customer demand or when the market price of the underlying security moves substantially from the exercise price or prices of the series already opened. Any additional strike prices listed by the Exchange shall be within thirty percent (30%) above or below the current price of the underlying security. The Exchange may also open additional strike prices of Short Term Option Series that are more than 30% above or below the current price of the underlying security provided that demonstrated customer interest exists for such series, as expressed by institutional, corporate or individual customers or their brokers. Market-Makers trading for their own account shall not be considered when determining customer interest under this provision. The opening of the new Short Term Option Series shall not affect the series of options of the same class previously opened.

(d) Strike Interval. The interval between strike prices on Short Term Option Series shall be the same as the strike prices for series in that same option class that expire in accordance with the normal monthly expiration cycle.
