

CLIENT NOTICE

DATE: February 19, 2008

SUBJECT: ArcaEdge Adds Pink Sheets

We are pleased to announce that ArcaEdge has recently expanded its platform to include trading in Pink Sheet securities. ArcaEdge is now the only Alternative Trading System (ATS) that offers broker dealers the ability to quote, route and trade electronically in both the Bulletin Board and Pink Sheet markets.

By limiting the securities available on ArcaEdge to those that qualify for the “piggy-back” exemption under SEC Rule 15c2-11 we continue to ease your burden of making certain regulatory filings regarding the Pink Sheet or Bulletin Board securities you are interested in trading. The ArcaEdge system helps fulfill your 3–quote obligation in Pink Sheet and Bulletin Board securities by automatically scanning for electronic quotes and providing a dedicated trade support desk to obtain manual quotes when necessary. We have also incorporated limit order display and “Manning Rule” principals, making ArcaEdge a faster, fairer way to trade thousands of Bulletin Board and Pink Sheet securities.

For more information on ArcaEdge and how to access our one-of-a-kind trading platform, please see www.nyse.com/arcaedge or contact your NYSE Relationship Representative or the ArcaEdge Trade Support Desk at 312.442.7700.
