

NYSE EURONEXT-July, 2009
TRUST IS AT THE FOUNDATION OF HOW OUR MARKETS WORK.

SUPER: DUNCAN NIEDERAUER CEO NYSE Euronext

Trust is at the foundation of how markets work.

You have to have trust in the system so that when the investors come to the market and feel confident, they're willing to invest, which then translates to business creation and job creation.

That chain is very, very important and frankly in the crisis last September and October that chain was broken.

A lot of the markets that got us in to trouble in the crisis were not regulated, they were not transparent there was really no accountability.

Markets like ours are stable, reliable, transparent and highly regulated. We realize that we are going to enter a period of re-regulation that is necessary.

And we find ourselves in a unique position to be part of the solution.

So that people feel the resulting business environment is one that is able to instill trust going forward... and gets us back on the path we need to be on.
