

# Trader Update

**Date:** September 1, 2009  
**Audience:** NYSE Arca Equities  
**Subject:** Equities Multicast Disaster Recovery Failover

---

**Highlight:** Disaster Recovery Failover from New Jersey to Chicago Data Centers

---

## Summary

On Saturday, September 26, 2009, NYSE Arca will be conducting a disaster recovery (DR) failover for the equities Multicast servers from New Jersey data center to the Chicago data center.

The purpose of the DR failover is to test the scenario if a minor or catastrophic event were to happen in New Jersey causing the Chicago data center to take over as the primary. The test will include both uncompressed and compacted feeds. Below are the Chicago IPs that will be required for a DR failover in equities:

63.211.72.60 - New Jersey 63.211.72.188 - New Jersey  
63.211.72.64 - New Jersey 63.211.72.192 - New Jersey  
8.9.19.60 – Chicago **(DR failover)** 8.9.19.188 – Chicago **(DR failover)**  
8.9.19.63 – Chicago **(DR failover)** 8.9.19.191 – Chicago **(DR failover)**

**Uncompacted / Compacted Feed ArcaBook Retransmission Request IP:**  
New Jersey – 63.211.73.14 Chicago – 8.9.32.38 **(DR failover IP)**

---

## Contact Info:

If you would like to participate in the DR Failover test, please email Connectivity at [connectivity@nyx.com](mailto:connectivity@nyx.com).
