

Trader Update

Date: October 20, 2009

Audience: NYSE Arca Equities Traders and Constituents

Subject: Change in Index Dissemination Source for ETF-Related Indexes

Summary:

Please refer to the below schedule for a list of ETF-related indexes that are scheduled to move their dissemination to the NYSE Arca Market Data Center (.P) effective Wednesday, October 21, 2009. All disseminations of these indexes from the NYSE Amex Market Data Center (.A) will be terminated.

In addition, due to the change in dissemination source, the shares outstanding for the ETFs, denoted with the .SO root, will be sent out as the actual shares outstanding of the fund, rather than as a factor of 1000, as is the case currently. Please refer to an example of this below:

Old Published Shares Outstanding (.SO): 100
New Published Shares Outstanding (.SO): 100,000

Note: This notice only applies to the Static Value ETF-Related Indexes for these products. Please consult a similar notice that displays the transfer of IOPV ETF-Related Indexes for 34 products (including these 25) to the NYSE (.N) effective for the same date.

			New Source = NYSE Arca (.P)				
Effective Date	ETF	Name	IOPV	NAV	Shares Outstanding	Estimated Cash	Total Cash
