SUBJECT: C2L Migration Test Output

PT 140

In NYSE Euronext Circular PT139, dated August 28, 2007, subject “C2L Application Migration”, the Shared Data Center (SDC) announced that individual applications would be moving on to the new Distributed Server Platform. The next group of systems to migrate is the after-hours systems that create the Merged Order Log and associated outputs. The target date to cutover these applications is **January 4, 2008**. The full list of the products that are migrating in this phase are listed below. It is recommended that each firm request a test file to ensure data integrity has been maintained.

Currently test data is available with production data sent through the new platform. The contacts below will inform you of the date of the data you will receive upon your request. For each product applicable to your firm contact the personnel listed below to receive your test copy. The test files will be sent using the Test Product ID to your production destination. If any firms require special arrangements for where the test data is to be sent, forward those requests to the Client Connectivity contacts below. Special requests will require lead time to set up routing.
