

Global Broker Volume

The interactive statistics service for NYSE Euronext's Cash Market members

Global Broker Volume is the online interactive statistics service of aggregate cash volume executed by member firms. Based on the US Broker Volume tool, Global Broker Volume has been enhanced to give member firms access to essential trading data across all of the NYSE Euronext US and European cash markets. Using a sophisticated set of filters, members can track their firm's NYSE Euronext cash trading volumes or follow competitive rankings across NYSE Euronext member firms. Global Broker Volume is available through a secure website that allows pre-set or customised reports to be generated and downloaded at any time.

How can Global Broker Volume help you?

NYSE Euronext provides the most accurate official information about its cash market and members' market share and ranking, thereby facilitating better decision making. With one easy-to-use system, Global Broker Volume allows customers to access their trading data on any or all of our markets, thereby eliminating the need to collect information from different sources, saving both time and money.

Time flexible reports for member firms

Trading data is available on T+1 and can be queried in a variety of different ways that includes the following:

- **By time period:** daily, month-to-date, monthly, year-to-date and yearly data, or any other customised time period.
- **By NYSE Euronext market:**
 - > [US Global Broker Volume](#) covers NYSE, NYSE Arca, NYSE Amex and the trade reporting facility TRF.
 - > [Europe Global Broker Volume](#) covers the NYSE Euronext regulated market order book NYSE Alternext, the trade reporting facility TCS and our MTF, NYSE Arca Europe.
- **By individual stock,** preset stock indices or industry sectors.
- **By multiple customised stock baskets.**
- **By volume in shares,** number of trades, turnover in US Dollars or turnover in Euros.
- **By different liquidity categories:**
 - > [US markets](#) include provide, take, blended routed or account type.
 - > [EU markets](#) include client, principal, liquidity provider or related party.

Reports can be produced onscreen, as an Excel file, or can be set up to be automatically emailed to you on a routine basis. Trading activity can be displayed collectively across firms or granularly by trading code.
