*There are three broad categories of securities that trade on the NYSE Bonds and NYSE Amex Bonds platforms: NYSE issues, NYSE Amex issues and Traded Issues.

"NYSE" Listed refers to debt securities which have been the subject of a listing application filed with the NYSE by the issuer, the approval and continued listing of which is conditioned upon meeting specified criteria.

"NYSE Amex" Listed refers to debt securities which have been the subject of a listing application filed with NYSE Amex (formerly the American Stock Exchange) by the issuer, the approval and continued listing of which is conditioned upon meeting specified criteria.

"Traded" refers to debt securities, which the NYSE has determined to admit to trading on the facilities of the Exchange, without the issuer having listed those securities on the NYSE. "Traded" securities trade only on the NYSE Bonds platform.
