# MIGRATION TO PILLAR PUBLISHERS

NYSE PROPRIETARY DATA

Proprietary market data will replace the Legacy market data publishers with NYSE Pillar publishers for all market data feeds. This change is specific to the following proprietary market data feeds:

- NYSE ArcaBook (updated Specification Document)

## NEW REQUEST SERVER SETUP GUIDELINES

The new Pillar Services will handle proprietary market data refresh and retransmission services.

Customers are required to certify new market data sessions in the NYSE Pillar CERT environment prior to production sessions being established.

Customers certified in one Pillar environment are not required to re-certify, but new sessions/IDs must be requested.

Please refer to NYSE Proprietary Data IP Addresses for details on the new multicast channels.

| **CERT/UAT**<br><br>Configure new Publisher/Retrans/Refresh channels. Pillar Request ID(s) are needed. Complete CERT and Attestation with the new request ID(s).<br>Available in CERT parallel **now**.<br>(refer to steps 1, 2, 3 below) | Configure new Publisher Realtime channels.<br>Available in CERT parallel **now.** |
| **PRODUCTION**<br><br>Configure new Publisher/Retrans/Refresh channels. Pillar Request ID(s) are needed.<br>NOTE: CERT Attestation has to be completed prior to this.<br>Available in PROD parallel **in Q2**.<br>(refer to steps 4, 5, 6 below) | Configure new Publisher Realtime channels.<br>Available in PROD parallel **in Q2.**<br>(refer to step 4 below) |

Please refer to the following steps:

1. Submit Pillar CERT session request form to tms@nyse.com.
2. Perform one-on-one certification testing with a member of the Firm Testing Team (customers certified in one Pillar environment for new market data sessions do not need to re-certify).
3. Submit an attestation upon successful completion of the testing checklist.
4. Verify connectivity to the new production Publisher multicast channels.
5. Submit Pillar Production session request form.
6. Verify connectivity to the new market data sessions (only for customers using refresh/retransmission services).
