## PREFACE

### DOCUMENT HISTORY

The following table provides a description of all changes to this document.

VERSION NO.	DATE	CHANGE DESCRIPTION
1.0	19 Aug 2015	Initial document: File Layout
2.0	9 Dec 2015	Client Specification at Product Launch.
2.1	16 Dec 2015	Equity Security Master Delta files specification added.
2.2	15 Aug 2016	Equity Security Master delivery schedule revised to 10:30pm.
2.2.1	25 Jul 2017	Equity Security Master updated to reflect behavior changes in the file and values for the introduction of NYSE American onto NYSE Pillar technology. NYSE MKT was rebranded NYSE American as of 07/24/2017. NYSE MKT and NYSE American can be used interchangeably in this document.
2.3.1	21 May 2018	Equity Security Master updated to reflect NYSE Pillar technology changes, the addition of NYSE National as a NYSE Group trading exchange and new value-added fields. This latest file specification layout will replace version 2.2.1 of the Equity Security Master which will be decommissioned in August 2018.
2.4.1	17 August 2018	Revised version to reflect migration from FTP2 to MFT server location.
2.4.2	11 September 2019	Revised field name for 'Line Suffix' to 'SIP Symbol' in Equity Security Master file layout.
3.0	18 October 2019	Enhanced the content of the NYSE Security Master to include NYSE Chicago with a new 3.0 file (additional 9 fields).
4.0	11 March 2020	Enhanced the content of the NYSE Security Master to include the Long-Term Stock Exchange (LTSE) with new 4.0 file. Target activation - April 24, 2020.  Note: In addition to the new LTSE Closing Price column, MEMX (Member's Exchange) + MIAX (Miami International Securities Exchange) Closing Price columns will be added as a placeholder.
4.0.1	30 July 2020	Made the following changes in Section 3.1: <ul style="list-style-type: none"> <li>• Updated Specification document to include 3 additional Transaction Partitions for field 60 (effective August 3, 2020).</li> <li>• Corrected Matching Engine and Transaction Partition values for fields 58 59, 60, 61 and 62.</li> <li>• Updated description for field 8.</li> </ul>
4.0.2	01 September 2020	Equity Security Master updated to support seven new and one renamed Regulatory Halt Condition Codes for field 121. Change to take effect on November 23, 2020.  Decommissioned legacy Firm Location file - NYSEGROUP_US_REF_SECURITYMASTER_FIRMLOC.
4.0.3	04 November 2020	Equity Security Master updated to support three new values for existing field 106. Change to take effect on December 7, 2020.

## 1. Introduction

---

The NYSE Group Security Master is a data product package comprised of several daily reports providing information on securities listed and trading on the NYSE Group Equity, Options and Bonds platforms including: NYSE, NYSE American, NYSE Arca, NYSE National, Amex Options, Arca Options and NYSE Bonds. NYSE Group Security Master also includes a NYSE Floor Information report providing details on NYSE Trading Floor brokers and clearing members.

The NYSE Group Security Master is a Start of Day product comprised of 8 different files delivered in the evening for the next trading day session providing the investing community a cross assets golden copy of the securities available for trading on the NYSE Group platforms. The product covers over 1.5 million U.S. instruments in more than 150 data fields.

The Equity Security Master and Amex and Arca Options files have been designed to complement our XDP realtime proprietary feeds data products in addition to complementing our NYSE Group Corporate Actions and NYSE Group Short Interest referential products. The product design allows for easy technical mapping across the products for customers in search of robust security master information.

The NYSE Group Security Master specifically addresses the needs for customers looking to minimize their operational and compliance risks such as Global, Middle Market and Retail Banks, Trading, Brokerage and Wealth Management firms as well as Hedge Funds.

The NYSE Group Security Master product also provides Data Vendors, Index, Trading Infrastructure and Financial Media providers with a unique depth of data points covering over 1.5 million U.S. instruments, which is easily integratable within their systems to support their product and service offerings. The data points are also ready for distribution to the providers' end-users.

The Exchanges and securities listed in the product are as follows:

- NYSE
- NYSE American
- NYSE Arca
- NYSE Chicago
- NYSE National
- American Options
- Arca Options
- NYSE Bonds
- NYSE Trading Floor members
- Nasdaq
- BATS

The Exchange universe of traded securities covered in the product is all US NMS approved securities to trade on the NYSE Group trading platforms.

### 1.1 DAILY FILES

The NYSE Group Security Master includes the eight following daily files:

- **NYSE Group Equity Security Master** (1 file): Report providing detailed equity referential data description and attributes at the security level listed and trading on NYSE Group (NYSE, NYSE American, NYSE Arca, NYSE Chicago and NYSE National).
- **Amex Options Security Master** (1 file): Report providing detailed derivative options referential data description and attributes at the series level listed and trading on Amex Options.
- **Arca Options Security Master** (1 file): Report providing detailed derivative options referential data description and attributes at the series level listed and trading on Arca Options.
- **NYSE Bonds Security Master** (1 file): Report providing detailed fixed income referential data description and attributes at the security level listed and trading on NYSE Bonds.
- **NYSE Floor Information** (3 files): Report providing detailed Member Firms and Floor brokers, Clearing and Commission Billing of the NYSE Trading Floor.

## 2. Managed File Transfer (MFT) Directory Structure, File Names/Format and Delivery Schedule

---

To access the data via our [Managed File Transfer \(MFT\) system](#), please kindly fill out the [MFT form](#). The purpose of the MFT form is to help us establish a connection for you to our MFT system which provides access to the data.

### Guidance for Completing the MFT Form:

- Under Intercontinental Exchange Entity: select **NYSE**
- Under Service Type: select **NYSE Historical/Reference Market Data**
- In the MFT User ID field: provide the **MFT User ID** listed below
- In the File Description field: provide **NYSE Group Security Master**

Upon completion of the MFT form, NYSE technical support team will confirm to make sure clients are able to access the MFT system.

Note: In each of the directories and file names described in this section, “YYYY” refers to the generation year of the files, “MM” refers to the generation month of the files, and “DD” refers to the generation day of the files. Historical files will be available on an on-going basis from December 16, 2015 and onward.

### 2.1 MFT SERVER NAME

Managed File Transfer System:

<https://mftus.nyx.com/>

### 2.2 MFT DIRECTORY NAME

The eight files of the NYSE Group Security Master package are available under one unique directory:  
**/NYSEGROUP\_US\_REF\_SECURITYMASTER**

The most recent files and historical files are available on:

**/NYSEGROUP\_US\_REF\_SECURITYMASTER**  
**/NYSEGROUP\_US\_REF\_SECURITYMASTER\_YYYY/NYSEGROUP\_US\_REF\_SECURITYMASTER\_YYYYMM**

where YYYYMM represent the most recent daily file generation year and month or the desired file date for historical files.

### 2.3 NYSE GROUP EQUITY SECURITY MASTER

The most-recent daily and historical files are available under the file name :  
**NYSEGROUP\_US\_REF\_SECURITYMASTER\_EQUITY\_4.0\_YYYYMMDD.ext**

The most-recent daily and historical delta files are available under the file name:  
**NYSEGROUP\_US\_REF\_SECURITYMASTER\_EQUITY\_4.0\_YYYYMMDD\_delta.ext**

where YYYYMMDD represent the most recent daily file generation date or the desired generation date for historical files.

- 1- Extension Format availability: **txt; xls and xml**
- 2- File Delivery Frequency: **Daily (for every trading day session)**
- 3- File Delivery Schedule: **10:30pm U.S. EST**
- 4- Delta File available (only changes from the prior generation date): **Yes, no closing prices included**
- 5- E-mail Delivery available: **Not available**
- 6- Data viewer: **Not available**

### 2.4 NYSE AMERICAN OPTIONS AND NYSE ARCA OPTIONS SECURITY MASTER

## NYSE GROUP SECURITY MASTER FILE SPECIFICATIONS

The most-recent daily and historical files are available under the file name:

Amex Options: **NYSEGROUP\_US\_REF\_SECURITYMASTER\_AMEXOPTIONS\_YYYYMMDD.ext**

Arca Options: **NYSEGROUP\_US\_REF\_SECURITYMASTER\_ARCAOPTIONS\_YYYYMMDD.ext**

where YYYYMMDD represent the most recent daily file generation date or the desired generation date for historical files.

- 1- Extension Format availability: **txt and xml**
- 2- File Delivery Frequency: **Daily (for every trading day session)**
- 3- File Delivery Schedule: **10:00pm U.S. EST**
- 4- Delta Files available (only changes from the prior generation date): **Yes, to be announced at a later date**
- 5- E-mail Delivery available: **Not available**
- 6- Data viewer: **Not available**

### 2.5 NYSE BONDS SECURITY MASTER

The most-recent daily and historical files are available under the file name:

**NYSEGROUP\_US\_REF\_SECURITYMASTER\_BONDS\_YYYYMMDD.ext**

The most-recent daily and historical delta files are available under the file name:

**NYSEGROUP\_US\_REF\_SECURITYMASTER\_BONDS\_YYYYMMDD\_delta.ext**

where YYYYMMDD represent the most recent daily file generation date or the desired generation date for historical files.

- 1- Extension Format availability: **txt; xls and xml**
- 2- File Delivery Frequency: **Daily (for every trading day session)**
- 3- File Delivery Schedule: **10:00pm U.S. EST**
- 4- Delta File available (only changes from the prior generation date): **Yes**
- 5- E-mail Delivery available: **Yes**
- 6- Data viewer: **Yes**

### 2.6 NYSE FLOOR INFORMATION

The most-recent daily and historical files are available under the file name:

Member Firm Admin: **NYSEGROUP\_US\_REF\_SECURITYMASTER\_FLOORDIR\_YYYYMMDD.ext**

Member Firm Admin (delta): **NYSEGROUP\_US\_REF\_SECURITYMASTER\_FLOORDIR\_YYYYMMDD\_delta.ext**
