The discount is based on the amount of monthly (i) total electronic volume and/or (ii) total posted volume executed in the Market Maker range relative to other Market Makers appointed in that issue.

For each issue, each month, the following will apply:

LMM Ranking	Discount to LMM Rights Fee
1st in total electronic volume	50%
2nd in total electronic volume	40%
3rd in total electronic volume	30%
4th or lower ranking in total electronic volume	N/A

Participants in the FB Prepay Program qualify for larger discounts (i.e., more than 10% of the 2019 Eligible Fixed costs) expressed through Tiers by achieving growth in billable manual volume by a certain percentage as measured against one of two benchmarks (“Percentage Growth Incentive”). The Percentage Growth Incentive excludes Customer volume, Firm Facilitation and Broker Dealer facilitating a Customer trades, and QCCs. Any volume calculated to achieve the Firm and Broker Dealer Monthly Fee Cap and the Limit of Fees on Options Strategy Executions (“Strategy Cap”), regardless of whether either of these caps is achieved, will likewise be excluded from the Percentage Growth Incentive because fees on such volume are already capped and therefore such volume does not increase billable manual volume.

To qualify for the Percentage Growth Incentive, a participating Floor Broker organization must increase their ADV during 2019 by the percentages set forth in the table below, above the greater of

- (i) 11,000 contract sides in billable manual ADV; or
- (ii) 110% of the Floor Broker’s total billable manual ADV in contract sides during the second half of 2017 – i.e., July through December 2017.

Tier 3	100%	100%*

*Participants in the FB Prepay Program that qualify for Tier 3 will be rebated the greater of 100% of their pre-paid annual Eligible Fixed Costs, or \$10,000/month.

To participate in the FB Prepay Program, Floor Broker organizations must notify the Exchange in writing by emailing optionsbilling@nyse.com, indicating a commitment to submit prepayment, by no later than December 31, 2018. The email to enroll in the Program must originate from an officer of the Floor Broker organization and, except as provided for below, represents a binding commitment through the end of 2019. Payment must be received in full by the close of business on January 31, 2019. A Floor Broker organization that commits to the Program will be invoiced in January, 2019 for Eligible Fixed Costs, based on their November 2018 costs, through the end of 2019, less 10% of the annual total. The Exchange will not issue any refunds in the event that a Floor Broker organization's prepaid Eligible Fixed Costs exceeds such actual costs. Participating Floor Broker organizations that qualify for the Percentage Growth Incentive will receive their 2019 rebate in January 2020.

Definitions

The following definitions are for purposes of Co-Location Fees only:

An “Affiliate” of a User is any other User or Hosted Customer that is under 50% or greater common ownership or control of the first User.

“Aggregate Cabinet Footprint” of a User or Hosted Customer is (a) for a User, the total kW of the User’s cabinets, including both partial and dedicated cabinets, and (b), for a Hosted Customer, the total kW of the portion of the Hosting User’s cabinet, whether partial or dedicated, allocated to such Hosted Customer.

A “Hosted Customer” means a customer of a Hosting User that is hosted in a Hosting User’s co-location space.

A “Hosting User” means a User of co-location services that hosts a Hosted Customer in the User’s co-location space.

A “User” means any market participant that requests to receive co-location services directly from the Exchange.

General Notes

1. A User that incurs co-location fees for a particular co-location service pursuant to this Fee Schedule shall not be subject to co-location fees for the same co-location service charged pursuant to the NYSE Arca Equities Fee Schedule or by the Exchange’s affiliates NYSE American LLC (NYSE American), New York Stock Exchange LLC (NYSE) and NYSE National, Inc. (NYSE National).

2. To qualify for a Partial Cabinet Solution bundle, a User must meet the following conditions: (1) it must purchase only one Partial Cabinet Solution bundle; (2) the User and its Affiliates must not currently have a Partial Cabinet Solution bundle; and (3) after the purchase of the Partial Cabinet Solution bundle, the User, together with its Affiliates, will have an Aggregate Cabinet Footprint of no more than 2 kW.

- A User requesting a Partial Cabinet Solution bundle will be required to certify to the Exchange (a) whether any other Users or Hosted Customers are Affiliates of the certifying User, and (b) that after the purchase of the Partial Cabinet Solution bundle, the User, together with its Affiliates, would have an Aggregate Cabinet Footprint of no more than 2 kW. The certifying User will be required to inform the Exchange immediately of any event that causes another User or Hosted Customer to become an Affiliate. The Exchange shall review available information regarding the entities and may request additional information to verify the Affiliate status of a User or Hosted Customer. The Exchange shall approve a request for a Partial Cabinet Solution bundle unless it determines that the certification is not accurate.
- If a User that has purchased a Partial Cabinet Solution bundle becomes affiliated with one or more other Users or Hosted Customers and thereby no longer meets the conditions for access to the Partial Cabinet Solution bundle, or if the User otherwise ceases to meet the conditions for access to the Partial Cabinet Solution bundle, the Exchange will no longer offer it to such User and the User will be charged for each of the services individually, at the price for each such service set out in the Price List. Such price change would be effective as of the date that the User ceased to meet the conditions.

In addition, a User that changes its Partial Cabinet Solution bundle from one option to another will not be subject to a second initial charge, but will be required to pay the difference, if any, between the bundles’ initial charges.

3. The initial and monthly charge for 2 bundles of 24 cross connects will be waived for a User that is waitlisted for a cage for the duration of the waitlist period, provided that the cross connects may only be used to connect the

User's non-contiguous cabinets. The charge will no longer be waived once a User is removed from the waitlist.

- If a waitlist is created, a User seeking a new cage will be placed on the waitlist based on the date a signed order for the cage is received.
- A User that turns down a cage because it is not the correct size will remain on the waitlist. A User that requests to be removed or that turns down a cage that is the size that it requested will be removed from the waitlist.
- A User that is removed from the waitlist but subsequently requests a cage will be added back to the bottom of the waitlist, provided that, if the User was removed from the waitlist because it turned down a cage that is the size that it requested, it will not receive a second waiver of the charge.

4. When a User purchases access to the LCN or IP network, it receives the ability to access the trading and execution systems of the NYSE, NYSE American, NYSE Arca, NYSE Chicago, Inc. (NYSE Chicago), and NYSE National (together, the Exchange Systems), subject, in each case, to authorization by the NYSE, NYSE American, NYSE Arca, NYSE Chicago or NYSE National, as applicable. Such access includes access to the customer gateways that provide for order entry, order receipt (i.e. confirmation that an order has been received), receipt of drop copies and trade reporting (i.e. whether a trade is executed or cancelled), as well as for sending information to shared data services for clearing and settlement. A User can change the access it receives at any time, subject to authorization by NYSE, NYSE American, NYSE Arca, NYSE Chicago or NYSE National. NYSE, NYSE American, NYSE Arca, NYSE Chicago and NYSE National also offer access to Exchange Systems to their members, such that a User does not have to purchase access to the LCN or IP network to obtain access to Exchange Systems.

When a User purchases access to the LCN or IP network it receives connectivity to any of the Included Data Products that it selects, subject to any technical provisioning requirements and authorization from the provider of the data feed. Market data fees for the Included Data Products are charged by the provider of the data feed. A User can change the Included Data Products to which it receives connectivity at any time, subject to authorization from the provider of the data feed. The Exchange is not the exclusive method to connect to the Included Data Products.

NYSE Arca OPTIONS: GENERAL

BILLING DISPUTES

All fee disputes concerning fees billed by the Exchange must be submitted to the Exchange in writing and must be accompanied by supporting documentation. All fee disputes must be submitted no later than sixty (60) days after receipt of a billing invoice.

1. Fee will be based on the maximum number of OTPs held by an OTP Firm or OTP Holder during a calendar month.

2. This fee is in addition to the Market Maker Fee and will be billed on a per issue basis to the OTP Firm acting as LMM in the issue. The Lead Market Maker Rights Fee does not apply to options on the NYSE FANG+ Index (FAANG). This fee will not apply to Interim LMMs acting in accordance with Rule 6.82-O(b)(4). This fee will not apply to issues that have been designated as "closing only" and are subject to delisting by the Exchange. An LMM will be charged 50% of the monthly Lead Market Maker Rights Fee if the LMM achieves one of the following: (1) daily contract volume traded electronically of at least 0.32% Total Industry Customer equity and ETF option ADV ("TCADV), of which 0.08% TCADV are in its LMM appointment, or (2) daily contract volume traded manually of at least 0.75% of TCADV in all account types, which can include transaction volume from the OTP Holder's or OTP Firm's affiliates (per Endnote 8) or its Appointed OFP (per Endnote 15). Whether an LMM will be charged 50% of the Lead Market Maker Rights Fee will be determined based on an average of the daily contract volume traded electronically by an LMM or traded manually by an LMM and affiliated/appointed entities each trading day in a calendar month.

Fees for issues with Average National Daily Customer Contracts of 0 – 100 will be capped at 50 issues per OTP Firm and any additional issues in this volume range will not be charged.

Fees for issues with Average National Daily Customer Contracts of 101 – 1000 will be capped at 50 issues per OTP Firm and any additional issues in this volume range will not be charged.

Fees for issues with Average National Daily Customer Contracts of 1001 – 2000 will be capped at 50 issues per OTP Firm and any additional issues in this volume range will not be charged.

3. This fee will apply to OTP Firms for which the Exchange is the Designated Examining Authority. An exemption from this fee will be granted to any NYSE Arca registered Floor Broker or Market Maker that effects at least 25% of all securities transactions, as measured in contract or share volume, on any options trading facility of NYSE Arca.

4. This fee does not apply to those firms subject to the \$2,000 monthly fee.

5. Manual executions exclude certain electronic transactions as described below.

A manual order that executes in part against one or more electronic orders or quotes resting on the Consolidated Book prior to executing against interest in the Trading Crowd shall be assessed the applicable manual transaction fee for the entire order. A manual order that executes entirely against one or more electronic orders or quotes resting on the Consolidated Book shall be assessed the applicable electronic transaction fee for the entire order. In either case, the contra-side electronic order or quote shall be assessed the applicable electronic transaction fee or credit. In order to be eligible for the manual transaction fee, all manual orders must be entered into the Exchange's Electronic Order Capture System. Manual orders that are entered into an order entry device approved by the Exchange and contemporaneously recorded into the Electronic Order Capture System are also eligible for the manual transaction fee.

6. For Electronic Executions, Post Liquidity Fees are credited and Take Liquidity Fees are charged (except that Firms and Broker Dealers shall be charged for electronic executions in non-Penny Pilot issues that post liquidity). Transaction fees do not apply to executions occurring during the Opening Auction. Penny Pilot issues trade as part of a pilot program in accordance with Rule 6.72-O.

7. Firm Facilitation and Broker Dealer facilitating a Customer – Manual applies to any transaction involving a Firm proprietary trading account that has a customer of that same Firm on the contra side of the transaction, or a broker dealer facilitating a Customer order, where the broker dealer and the Customer both clear through the same clearing firm and the broker dealer clears in the customer range.

8. The calculations for qualifications for monthly posting credits or discounts only include electronic executions and the Exchange will include the activity of either (i) affiliates or (ii) an Appointed OFP or Appointed MM, per Endnote 15. Any volume in options on NYSE FANG+ (FAANG) would be included in calculations to qualify for any volume-based incentives currently being offered on the Exchange. Unless Professional Customer executions are specifically delineated, such executions will be treated as “Customer” executions in calculating qualifications for monthly posting credits or discounts. Customer equity and ETF option ADV does not include Electronic Complex Order Executions. The Exchange may exclude from the calculation of ADV contracts traded any day (1) the Exchange is not open for the entire trading day and/or (2) there is an Exchange System Disruption. QCC orders are neither posted nor taken; thus QCC transactions are not included in the calculation of posted or taken execution volumes. Orders routed to another market for execution are not included in the calculation of taking volume. Market Maker Total Electronic Volume does not include Electronic Complex Order Executions, QCC Transactions, or orders routed to another exchange for execution. Total Industry Customer equity and ETF option average daily volume (“TCADV”) includes OCC calculated Customer volume of all types, including Complex Order Transactions and QCC transactions, in equity and ETF options. An affiliate of an OTP Holder or OTP Firm is as defined in NYSE Arca Rule 1.1(a). For purposes of calculating the executed Average Daily Volume (“ADV”) of Retail Orders of U.S. Equity Market Share on the NYSE Arca Equity Market, a Retail Order must qualify for the Retail Order Tier set forth in the NYSE Arca Equities Fee Schedule.

9. Applies to OTP Holder proprietary orders (“F” origin code), QCC transactions executed by Floor Brokers from the Floor of the Exchange, and broker dealer orders clearing in the customer range in all products, except for orders of joint back-office (“JBO”) participants, and does not include Strategy Executions or Royalty Fees. A JBO participant is a Member, Member Organization or non-member organization that maintains a JBO arrangement with a clearing broker-dealer (“JBO Broker”) subject to the requirements of Regulation T Section 220.7 of the Federal Reserve System. See also NYSE Arca Rule 4.16-O(c). For purpose of the Monthly Firm Cap, JBO participant orders are excluded because the Exchange is unable to differentiate orders of a JBO participant from orders of its JBO Broker and therefore is unable to aggregate the JBO participant’s orders.

10. (a) Reversals and Conversions. A “reversal” is established by combining a short security position with a short put and a long call position that shares the same strike and expiration. A “conversion” is established by combining a long position in the underlying security with a long put and a short call position that shares the same strike and expiration.

(b) Box spread. A “box spread” is defined as transactions involving a long call option and a short put option at one strike, combined with a short call option and long put at a different strike, to create synthetic long and synthetic short stock positions, respectively.

(c) Short stock interest spread. A “short stock interest spread” is defined as transactions done to achieve a short stock interest arbitrage involving the purchase, sale and exercise of in-the-money options of the same class.

(d) Merger spread. A “merger spread” is defined as transactions done to achieve a merger arbitrage involving the purchase, sale and exercise of options of the same class and expiration date, each executed prior to the date on which shareholders of record are required to elect their respective form of consideration, i.e., cash or stock.

(e) Jelly rolls. A “jelly roll” is created by entering into two separate positions simultaneously. One position involves buying a put and selling a call with the same strike price and expiration. The second position involves selling a put and buying a call, with the same strike price, but with a different expiration from the first position.

11. These fees will not be assessed on the customer side of transactions. Please refer to “Limit of Fees on Options Strategy Executions” section of this schedule for information regarding Royalty Fees associated with Options Strategy Executions.

12. The Ratio Threshold Fee is calculated on a monthly basis. This fee shall not apply to orders that improve the Exchange’s prevailing best bid-offer (BBO) market at the time the orders are received.

13. QCC executions in which a Customer is on both sides of the QCC trade will not be eligible for the Floor Broker credit. The Floor Broker credit is paid only on volume within the applicable tier and is not retroactive to the first contract traded. The maximum Floor Broker credit paid shall not exceed \$375,000 per month per Floor Broker firm.

14. Binary Return Derivatives (“ByRDs”) transactions. ByRDs are exempt from all transaction fees and credits. Any volume in ByRDs will be included in the calculations to qualify for any volume-based incentives currently being offered on the Exchange.

15. Includes transaction volume from the OTP Holder’s or OTP Firm’s affiliates or its Appointed OFP or Appointed MM. An “Appointed MM” is an NYSE Arca Market Maker that has been designated by an Order Flow

Provider (“OFP”) (as defined in NYSE Arca Rule 6.1A-O(a)(21)). An “Appointed OFP” is an OFP that has been designated by an NYSE Arca Market Maker.
