NYSE Regulation

RBE-11-05
August 4, 2011

TO: **ETP Holders**

SUBJECT: AMENDED ARCA EQUITIES RULES 7.11 AND 7.23 – TRADING PAUSES EXTENDED TO ALL NMS STOCKS AND RELATED CHANGES TO MARKET MAKER QUOTING REQUIREMENTS EFFECTIVE **AUGUST 8, 2011**

I. PURPOSE

The purpose of this Regulatory Bulletin is to remind NYSE Arca, Inc. ("NYSE Arca" or the "Exchange") ETP Holders that the Securities and Exchange Commission has approved amendments to NYSE Arca Equities Rule 7.11 to extend volatility trading pauses to all NMS stocks and to revise certain related market maker quoting obligations under NYSE Arca Equities Rule 7.23(a)(1)(B).[1]

These rule changes will be effective **August 8, 2011**.

II. RULE 7.11 Changes – all NMS stocks subject to Trading Pauses

Under Rule 7.11, which is currently operating on a pilot basis, the Exchange pauses trading in an individual security traded on the Exchange if the price moves by 10% or more as compared to prices of that security in the preceding five-minute period (the "Threshold Move"). The pilot currently covers only securities included in the S&P 500® Index, Russell 1000® Index, and 344 specified exchange traded products, a list of which is attached. If a security experiences a Threshold Move, trading in that security shall immediately pause on the Exchange for a period of five minutes (a "Trading Pause").

Effective August 8, 2011, Rule 7.11 will be applicable to all NMS stocks, i.e., all NMS eligible securities other than options as defined in Rule 600 of Regulation NMS. Accordingly, all securities that trade on the Exchange will be subject to such individual stock circuit breakers, including all exchange traded products.

The Threshold Move applicable to a particular security will depend on certain factors, including the price of the security. The price determination will be based on the closing price of the security on the preceding trading day. If there is no closing price, the Exchange will use the last sale reported to the Consolidated Tape on the previous trading day.

---

[1] See Securities Exchange Act Release No. 64735 (June 23, 2011) (SR-NYSE-2011-26).

The following chart summarizes the Threshold Moves that will be applicable to securities that trade on the Exchange beginning on August 8, 2011:

Security	Threshold Move
S&P 500® Index, Russell 1000® Index, and 344 specified ETPs	10%
All other NMS stocks priced equal to or greater than $1.00	30%
All other NMS stocks priced less than $1.00	50%

All other aspects of the Trading Pause rule will remain the same, including the times the rule is in effect and the manner by which the Exchange calculates the Threshold Move, triggers a Trading Pause, and reopens trading following a Trading Pause.

The Exchange further notes that the Rule 7.11 Trading Pauses are currently scheduled to remain in effect as a pilot until the earlier of August 11, 2011 or when a limit up-limit down plan is implemented.[2]

III. Rule 7.23(a)(1)(B) Changes – updated market maker quoting requirements

Rule 7.23(a)(1)(B) currently specifies that ETP Holders that are registered as market makers must maintain a two-sided quotation of at least one round lot not more than the Designated Percentage away from the national best bid ("NBB") or national best offer ("NBO"). Currently, the Designated Percentage for securities subject to the Trading Pause Rule, i.e. S&P 500® Index and Russell 1000® Index securities, and the list of specified ETPs, is 8% between 9:45 a.m. and 3:35 p.m. and 20% for the remaining periods of the trading day, and for securities not subject to the Trading Pause rule, 30%.

To ensure that the market maker quoting obligations remain with a narrower range that the new Threshold Moves for the amended Trading Pause rule, the Exchange has amended the market maker quoting obligations.

The following chart summarizes the Designated Percentages that will be applicable to market maker quoting requirements beginning on August 8, 2011:

---

[2] The Exchange, other markets and FINRA will likely file to extend the pilot date for the Trading Pause rule. The markets filed the limit up-limit down plan on April 5, 2011. See Securities Exchange Act Release No. 68547 (May 25, 2011), 76 FR 31647 (June 1, 2011) (File No. 4-641).

Security	Designated Percentage 9:45 a.m. to 3:35 p.m.	Designated Percentage 9:30 a.m. to 9:45 a.m. 3:35 p.m. until close of trading
S&P 500® Index, Russell 1000® Index, and 344 specified ETPs	8%	20%
All other NMS stocks priced equal to or greater than $1.00	28%	28%
All other NMS stocks priced less than $1.00	30%	30%

Rule 7.23(a)(1)(B)(iv) further provides that if the NBB or NBO increases or decreases to a level that would cause the market maker quoting interest to be more than the Defined Limit away from the NBB or NBO, the market maker shall enter a new bid or offer at a price not more than the Designated Percentage away from the then current NBB or NBO. Accordingly, market makers must update their quotes under this rule when the NBB or NBO has moved the Defined Limit away from the market maker's existing quote.

The following chart summarizes the Defined Limits that will be applicable to market maker quoting requirements beginning on August 8, 2011:

Security	Defined Limit 9:45 a.m. to 3:35 p.m.	Defined Limit 9:30 a.m. to 9:45 a.m. 3:35 p.m. until close of trading
S&P 500® Index, Russell 1000® Index, and 344 specified ETPs	9.5%	21.5%
All other NMS stocks priced equal to or greater than $1.00	29.5%	29.5%
All other NMS stocks priced less than $1.00	31.5%	31.5%

ETP Holders registered as market makers are reminded that they must have adequate written policies and procedures and systems in place to ensure compliance with the quoting obligations set forth in Rule 7.23 (a)(1)(B). Failure to meet the quoting obligations set forth in that rule may result in disciplinary action.

In addition, NYSE Regulation notes that ETP Holders also should be aware that the pricing obligations within the amended Rule 7.23 are not meant to provide guidance for bona fide market making for those participants claiming exceptions to Regulation SHO under Regulation SHO Rule 203(b)(2)(iii) and 204(a)(3). Regulation SHO provides market makers with a limited exception from the "locate" and "close-out" requirements for short sales, but only in connection with bona fide market making activities. According to the Securities and Exchange Commission ("SEC"), the determination of whether activity qualifies for the bona fide market making exception will be decided on a case-by-case basis, depending on the particular facts and circumstances surrounding the activity.[3]

Moreover, NYSE regulation reminds ETP Holders that those firms affording themselves bona fide market making privileges within Regulation SHO must, during the course of a regulatory review or investigation, provide evidence that supports their ability to avail themselves of these limited exceptions from the locate and close-out requirements.

Finally, ETP Holders must include their Market Maker ID in order for their market making interest to receive credit for satisfying the "Two-Sided Obligation" within Exchange Rule 7.23. Market Makers that connect using FIX must include their Market Maker ID in FIX Tag 50. Market Makers that connect using ArcaDirect version 3.2 must include their Market Maker ID in the "Account" field. Market Makers that connect using ArcaDirect version 4.0 must include the Market Maker ID is the "SenderSubID" field..[4]
