#### **OATS Testing Opportunity**

Saturday June 15, 2019 will be the second of three testing opportunities for OATS reporting. Further details can be found in this [Trader Update](#).

## NYSE Pillar Gateways for NYSE

NYSE Pillar Gateways will be introduced for the NYSE market, supporting order types and modifiers as detailed in the functional differences document and NYSE Pillar Gateway specifications. They will be supported in production for Tape B and C securities beginning on July 1, 2019.

Legacy NYSE CCG FIX and NYSE UTPDirect (binary) gateways will remain available, but performance on NYSE Pillar gateways will be superior.

Firms routing orders to NYSE Floor Brokers will continue to use their NYSE CCG FIX connections until NYSE Pillar Gateways are introduced at a later date.

Updated NYSE Pillar Gateway specifications and functional difference documents can be found [here](#).

## Requesting NYSE Pillar Gateways for NYSE

Firms will need to complete the following forms to receive sessions on the new NYSE Pillar gateways. [Connectivity Questionnaire](#), [Session Request Form](#) and the [Master User Agreement](#) (if not already completed.) Return completed documents to [crs@nyse.com](mailto:crs@nyse.com).

## Functional Differences

There will be functional changes for NYSE Tape A securities on Pillar regardless of the gateway used. Details of the functional changes have been updated for each market and can be found [here](#) with changes highlighted and summarized in the version history. As a reminder, the changes are organized within document in the following categories:

- #Auctions
- #OrderHandling
- #Gateways
- #MarketData
- #General
