

Regulatory Bulletin

NYSE RB 17-03
NYSE MKT RB 17-03

July 21, 2017

TO: NYSE and NYSE MKT MEMBERS AND MEMBER ORGANIZATIONS

SUBJECT: NYSE Rule 36 - Use of Non-NYSE Provided Cellular Phones on the Floor of the Exchange

On July 17, 2017, the Exchange published Regulatory Bulletins NYSE RB 17-02 and NYSE MKT RB 17-02 (the "Regulatory Bulletins") discussing amendments to Rule 36 (Communication Between Exchange and Members' Offices). Those amendments will permit Floor brokers to use cellular or wireless phones on the Floor of the Exchange that have not been provided by the Exchange and will make related changes modeled on the rules of NYSE MKT and NYSE Arca, Inc., governing telephone use on those markets' options trading floors.

The purpose of this bulletin is to communicate that the operative date for those amendments has been changed from September 15, 2017, to September 18, 2017 (the "Implementation Date").

The current version of Rule 36 will remain in effect until the Implementation Date.

All Exchange-provided cellular phones will be disabled as of the Implementation Date.

For further details, please consult the Regulatory Bulletins.
