RE: Implementation Date of Revised Dividend Notification Policy

DATE: [January 30, 2018](#)

On August 14, 2017, the SEC approved an amendment to the NYSE Listed Company Manual to require listed companies submitting dividends either during or outside of market hours to provide the NYSE with advance notice at least 10 minutes before releasing this information to the public.

In order to give listed companies sufficient time to change their internal procedures to comply with the new policy and due to required technology changes, the Exchange delayed implementation of the amended rule. Consistent with the provisions of the SEC notice referenced below, the implementation date for the amended rule will be February 1, 2018.

The SEC's public notice of filing and immediate effectiveness of the Exchange's filing delaying implementation of the amended rule can be found [here](#) and the rule text can be found [here](#).

Should you have any questions, please contact the NYSE at (212) 656-5505 or dividend@nyse.com.

NYSE Listing Manager

Companies are strongly encouraged to submit their dividend notifications through the Exchange's Listing Manager portal. Listing Manager is an integrated technology platform that enables listed companies to easily connect with the Exchange and comply with key requirements.
